LEARN MORE

A Comprehensive Solution Loaded With Utility!

Truck Software

This self guided, intuitive software allows you to check connections, actuate components, change parameters, configure system data, clear errors, run diagnosis reports and more on virtually all trucks.

DTC Solutions

Once you know your code, head to DTC Solutions to find your "quick" repair information. This program has a lifetime license and is simple to use. Pick your ECU and model, find your code, and see exactly what you need to know about that code, including components to look at for repairs.

Professional Labor Estimates

Labor Time Guide is easy-to-use software that allows you to quickly and easily access common labor times and build professional looking custom estimates. This software has a lifetime license, no annual fees and even works without an internet connection.

KnowledgeBase

Another product you will only find from Diesel Laptops! This program puts access to tens of thousands of PDFs in your hands when you need them. This includes step-by-step PDF guides, wiring diagrams, remove and replace instructions, and much more. This software program covers both Truck and Off Highway.

Rugged Hardware and Accessories

Rest assured that your software comes pre-loaded on the toughest laptop on the planet: a Panasonic CF-31 Toughbook with 240GB SSD, 8GB RAM, Wi-Fi/Bluetooth, Windows 10 Pro and a 12-month warranty.

This kit also includes a rugged carrying case to house your laptop, cables and accessories.

TruckFaultCodes.com

This kit comes with 12 months of complementary access to our latest tool, TruckFaultCodes.com (a \$199 value.) We have combined DTC Solutions with KnowledgeBase and put it on one website where you can access the data with a laptop, tablet, or mobile phone. Complete, easy to access repair information is at your fingertips.

Technician Training is Included

Not only do we offer weekly online Cojali training courses to help you get to know your software, but we offer Diesel Technician training as well.

One free Diesel Technician training class is included with your purchase.

Expert Help is Standing by

One year of Premium Technical Support is included. During this time, you will have unlimited access to certified IT professionals and field trained Diesel Technicians.

Our experts can guide you through any issue from basic connection issues to complex software issues and everything in between. Multi-lingual support is also available.

“

CUSTOMER REVIEWS

Professionalism, Quality, Responsiveness, Value . Awesome customer support, very friendly staff and awesome product for a reasonable price” – Aaron W.

Diesel Laptops has helped make our shop so much more productive. We are saving a considerable amount of time and money by diagnosing and repairing our own vehicles without the tow bills and the time spent at the dealer's lot waiting to get in for diagnosis and repair. – Mark Mercier

Really a one-stop shop for all my diesel diagnostic and support needs! Their tools have really helped the fractured nature of the diesel diagnoses and repair field. - Steven P.

The best there is, the best there was, and the best there ever will be. Your one-stop truck, farm, construction, and marine diagnostic needs is here. - Jason G.

Diesel Labtops provides an all-in-one diagnostic platform; perfect for my teaching needs. Students tend to learn best when first exposed to Diesel Laptops for diagnostics. Even after learning about OE diagnostic tools, they tend to gravitate back to Diesel Laptops due to the ease of use. – Mariano Rubio
