Is Your Business Stuck with Paper Processes, Difficult Time Tracking, Missing Equipment and Slow Invoices?

Do any of these challenges sound familiar?

1. Your time tracking is not accurate which can cause missed billing opportunities, inaccuracy of job costing, and too much effort getting your team to track their time.
2. Your tools, trucks, and equipment are continually misplaced. In addition to knowing where they are located, it is a challenge to proactively manage maintenance schedules to keep your assets maintained.
3. Frustrated with using whiteboards, sticky notes, and spreadsheets to assign your team to jobs? With delays eating profits, it is important to get the right people with the right skills assigned quickly.
4. Having trouble tracking compliance to OSHA and other standards? With team safety and severe penalties for non-compliance at stake, addressing this challenge becomes a necessity.
5. Is communicating with your distributed workforce difficult? Printed work orders, emails, shared drives, scans and faxes don't support real-time information exchange that is required to support clients.

LEARN HOW SPARK CAN HELP!

About Us & Our Services

We offer affordable and practical software solutions for trade contractors that increase business productivity with a visible ROI.

Enterprise Resource Planning

We help organizations automate back house functions – relating to technology, services, human resources, and more – to automate flows and save time.

Software Development

We work with our clients to develop custom software solutions utilizing the latest technology that fits their needs and business goals. When you partner with us, nothing is outside the realm of possibility.

Business Intelligence

You have the data, now let's do something with it! We will work with you to build dashboards that will help you understand your business and make better organizational decisions.

Technology Consulting

Technology can seem daunting, but we are here to provide you with straightforward advice and guidance. You can ask us anything!

Our Skills, Talents & Expertise

Our team has a passion for efficiency. We thrive on turning processes into time and cost-saving solutions for our clients. No matter the project size, our team is experienced in providing affordable and automated business solutions.

90

Our average project is completed within 90 days.

12

Our customers typically see a ROI in 12 months.

How We Do What We Do

Our process is transparent, allowing you to view progress at any and all times throughout the course of your project.

Learn

We learn about your business, processes, and what is important to you so we can assess and deploy an effective and efficient solution for you.

Design

During the design phase, we will collaborate with you on every aspect of your project. This ensures that your expectations are met and our solutions works for you.

Build

Seeing your project come to life is fun, and that's why we update your system each day so you can see - in real time - the work we've done.

Engage

Our team provides constant feedback and continuous updates to provide you with the support you need to ensure your project is a success.

Our clients are our best advertisement.

Nothing makes us happier than hearing how happy we make our clients.

Todd McDonald
COO at CSM Group

"SPARK is a true partner in their approach with a focus on listening to our needs and then developing solutions; in the case of our app its foundation was around engaging our teammates. Their solution left our teammates wanting more from our app, which has driven higher engagement and efficiencies within CSM."

Amy Jones
Vice President at Andy Egan

"For decades, we've used whiteboards, post its and excel spreadsheets to manage our workforce. Spark Business Works quickly understood our needs and delivered on our vision for a digital workforce management tool."

Our custom-built apps can change the way you do business.
